Daman Investments Implements A State Of The Art Portfolio Management System

UAE, Dubai: Daman Investments PSC, one of the leading UAE-based regional investment companies, announced today that it had chosen the Advent Portfolio Exchange platform (APX) to enhance its Asset Management system capabilities. The APX platform offers a robust set of portfolio management, fund accounting & performance analytics tools.

The APX platform stood out from the competition due to its simplicity, and modular features.

“Daman’s client-centric approach over the years has allowed us to deliver superior risk-adjusted returns and APX will help us further strengthen our investment management & client-reporting capabilities.” said Farid Samji, Head of Asset Management at Daman Investments. Advent provided us with a compelling solution which was not only compliant with the Global Investment Performance Standards (GIPS) but also had a robust implementation track record and support in the region, he added.
