

Fund Name and Reporting Period

Allianz Global Artificial Intelligence Feeder Fund

18th July 2024 to 30th September 2025

Fund Performance during the reporting period

The investment objective of the Sub-Fund is to generate long-term capital growth by investing in the global equity markets with a focus on the evolution of artificial intelligence in accordance with the Sustainability Key Performance Indicator Strategy (Relative) ("KPI Strategy (Relative)"). In this context, the aim is that the Master Sub-Fund's Sustainability KPI will outperform the Master Sub-Fund's Benchmark to achieve the investment objective.

The Sub-Fund is a Feeder Fund and will invest substantially all of its assets in Allianz Global Artificial Intelligence (the "Master Sub-Fund"), a sub-fund of Allianz Global Investors Fund (the "Master Fund")

Allianz Global Artificial Intelligence Feeder Fund's AT class returned 17.60% during the performance period of 27th September 2024 to 30th September 2025 in line with Master Fund's performance of 18.59% during the same period. The performance reporting period starts from 27th September 2024 as the first subscription was received on this day. By the nature of its investment objectives the Fund is exposed to same factors impacting the Master Fund. During the period factors such as elections, DeepSeek and subsequent renewed AI optimism, Tariff fears and easing tensions later along with a rate cut weighed on the fund performance.

Global markets rallied from September 2024 to September 2025 as Fed easing and resilient earnings ultimately outweighed a volatile Q1 marked by DeepSeek and Trump tariff fears, with renewed AI enthusiasm, easing trade tensions and a September Fed rate cut driving US equities to record highs and supporting a broad global risk-on rally by the end of the period.

Material Changes affecting the Fund

During the reporting period there were no major changes affecting the Fund.

Changes in the Fund's Net Asset Values

The funds' net assets ended the period at USD 0.78 million.
